Since 1980s, China’s automotive industry has entered the stage of all-round development. Emerged as the times require, Auto Shanghai has been embracing the rapid development of China’s automotive industry.

Auto Shanghai, ranking among the world’s top auto shows, has been transformed from “a follower” into “a leader” with continuous striving spirit during the past thirty years. The development of Auto Shanghai is an epitome of China’s reform and opening-up, which provides a powerful stage for showcasing “Made in China”. The continuous support from global automotive industry, media and enthusiastic visitors is indispensable for our success.

Attracting worldwide attention, automotive industry has been constantly evolving in terms of technology innovation and manufacturing capacity. With the trends of electrification, intelligence, connectivity and sharing, industry professionals are extending a grand vision to the future. By introducing innovative technologies such as artificial intelligence and autonomous driving, future automobiles tend to be more people-oriented. In the future, automobiles will not only be used as a means of transportation, but also become our assistants and friends. Sheer driving pleasure shall be realized by analyzing our preferences, managing our mobility and enriching our social lives. A brand-new lifestyle driven by automotive innovation is emerging.

With the theme of “Create A Better Life”, the 18th Shanghai International Automobile Industry Exhibition (Auto Shanghai 2019) will focus on the future development target of automotive industry: creating a better life. We believe that innovative ideas, cutting-edge technology and products, artistic design, intelligent experience and glamorous lifestyle that highlights future automotive technology will once again light up the eyes of the world.

We warmly welcome your participation in April 2019 in Shanghai. To live up with the expectation of global automotive industry, let’s make joint effort for a prospective industry development, for the win-win cooperation of all industry players, and for a better life together!
